

## Office of the Secretary of Labor

## § 12.1

(b) A finding of no significant impact (40 CFR 1508.13) may be prepared in any format considered to be effective or necessary by the agency involved in the proposed action.

(c) The finding of no significant impact, and the environmental assessment on which it was based, as well as any comments received in response to these documents shall be included in the public record of the proposed action.

(d) Department of Labor agencies shall comply with the format requirements for environmental impact statements as set forth at 40 CFR 1502.10, except when an agency determines that there is a compelling reason to do otherwise, such as more effective communication or reduced duplication of effort and paperwork (40 CFR 1506.4). For example, in OSHA/MSHA informal rulemaking proceedings, environmental documents may be combined with the FEDERAL REGISTER notice of proposed or final rulemaking. Filing and circulation of the combined preamble/environmental document shall be in accordance with the requirements of 40 CFR 1506.9.

(e) The final environmental impact statement shall contain any changes in information or supplemental information received since the filing and circulation of the draft environmental impact statement, as well as a summary, or copies of the substantive comments received in response to the draft environmental impact statement. If such changes and comments are minor, an agency may circulate only the changes and comments, including responses to the comments, rather than the entire impact statement, to the extent permitted by 40 CFR 1502.19. However, the entire document, with a new cover sheet, shall be filed with EPA and placed in the rulemaking record.

### § 11.13 Public participation.

(a) When an agency has determined that preparation of an environmental impact statement is required, the agency shall publish a notice of intent to prepare an environmental impact statement in the FEDERAL REGISTER and shall invite public participation in the agency's scoping process as required by 40 CFR 1501.7.

(b) When the draft environmental impact statement has been prepared and filed with the EPA pursuant to § 11.11(f), comments on the document shall be solicited from appropriate Federal, State and local agencies, Indian tribes, and other persons or organizations who may be interested or affected, as required by 40 CFR 1503.1.

(c) In the case of an action with effects primarily of local concern, agencies shall consider the use of clearinghouses, newspapers and other public media likely to generate local participation in the agency process as ways of supplementing the notices otherwise specified in this part. The use of such public media does not, however, require or authorize the use of paid advertising.

### § 11.14 Legislation.

Notwithstanding any provisions of this part, environmental assessments or impact statements prepared in connection with requests for new legislation or modification of existing statutes shall be handled in accordance with applicable OMB and Department of Labor procedures on the preparation and submission of legislative proposals and the requirements of 40 CFR 1506.8.
